

Journey Management Solution

Easy-to-Use. Safety Focused. All-in-One.

One of the Riskiest Times of a Worker's Day is While In a Vehicle

According to the **National Institute for Safety and Health**, work-related crashes in the US cost employers \$39 Billion USD in 2019. Approximately 17,000 workers died in vehicle crashes between 2011 and 2019. And 50% of work-related deaths in the oil and gas extraction industry are due to vehicle crashes.

Canadian Occupational Safety ranked vehicle-related incidents #6 on its March 2022 list of **Most Common Preventable Workplace Accidents**. According to the article, in Canada in 2020, there were 1,745 motor vehicle fatalities and 7,868 serious injuries.

Field Safe's Journey Management solution tracks each trip from beginning to end

Field Safe's Journey Management Solution Highlights

-  Pre-trip risk assessments are conducted, with a score of high, medium, or low assigned.
-  Predetermined workflows and guidance on how to proceed is then communicated.
-  Travel risks are identified ahead of time, and continually evaluated throughout the trip to protect against changes in weather and other conditions.
-  Incident details (including photos) are easily documented and submitted.
-  Intel is used to proactively and predictably reduce travel risks and optimize route planning.

Improve Your Workers' Safety from Vehicle to Site

Field Safe's Journey Management Solution tracks the status of a trip from beginning to end.

Risk is assessed (high, medium, or low) before you start and recommendations for how best to proceed are then calculated and communicated.

"Operating a vehicle is one of the riskiest jobs any employee can perform. Thanks to our easy-to-use solution, you can track the progress of all journeys and receive immediate feedback should any issue occur at any point along the way. Field Safe gives organizations peace of mind that their people are accounted for anywhere in the world." ~ Cam Barrett - CEO

FIELD SAFE
SOLUTIONS

Save Time, Save Money, and Save Lives

Safety First

- ✓ Know where your people are and communicate with them at any time, anywhere in the world.
- ✓ Real-time awareness of potential hazards means you can correct and protect your people fast.
- ✓ Visibility to the complete life cycle of an incident helps minimize and mitigate future occurrences.
- ✓ Field Safe integrates with emergency service providers to provide active monitoring of users. Workers know that in the event of an incident, help will soon be on the way.

Additional Benefits

Respond to Changing Road, Weather and Other Travel Conditions.

In the event of an incident, information is easily documented and shared from the vehicle to emergency responders and head office.

Lower Operating Costs and Meet Environmental Mandates.

Save trees, lower CO2 emissions and lighten your carbon footprint. Routes are optimized in the event of a detour or other change in the path to your destination.

Win More Business.

A digital safety solution helps prove you are a safety-conscious vendor.

Maintain Security Compliance.

Our SOC 2 compliance certification means we meet the highest industry standards for data security.

About Us

Field Safe's easy-to-use health and safety solution and smarter workflows methodology connect workers and help our clients save time, save money, and save lives. We do this by simplifying the sharing of field data and facilitating real-time communication among workers and management at any time, anywhere in the world.
