

Lone Worker Monitoring Solution

Easy-to-Use. Safety Focused. All-in-One.

With Field Safe, Your Workers Are Never Truly Alone

North America has some of the world's most stringent regulations to protect lone and other at-risk workers.

Even without those regulations, your primary objective is always the safety of your people and ensuring they arrive home safely at the end of every shift.

Field Safe is an easy-to-use solution that improves the safety of your lone workers and, by doing so, helps you maintain regulatory compliance.

Field Safe's Lone Worker Monitoring Solution Highlights

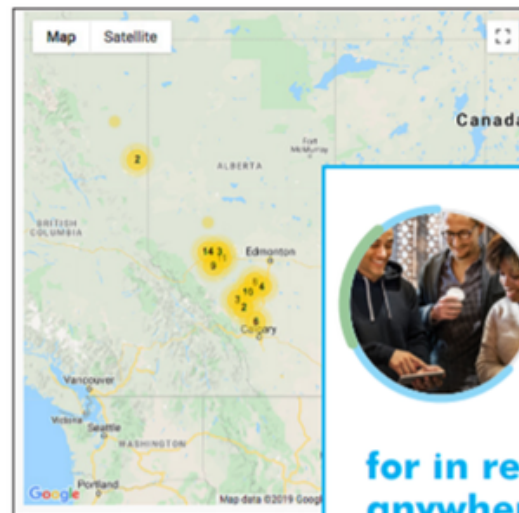

-  Real-time connectivity means you can communicate with your people at any time from anywhere.
-  Know where each and every worker is, what they are working on, and the status of those projects.
-  Digital forms provide immediate access to data for decision-making, increase completion and submission rates, and reduce admin costs.
-  Instant access to automatically updated safety manuals keeps your team current and compliant with fast-changing regulations.
-  Adoption rates are high, with 90% of workers utilizing our solution within 3 months of implementation.

Why Is Ease of Use So Important?

Bells and whistles are nice, but at the end of the day, to be effective, a tool has to be utilized.

Field Safe purposefully builds all of our solutions to be easy for anyone to operate.

Because of ease of use, adoption rates are high. And because adoption rates are high, your workers are safer.

Lone Worker Monitoring

“Peace of mind knowing your people are accounted for in real-time – anywhere in the world.”

IBM Canada

Save Time, Save Money, and Save Lives

Safety First

- ✓ Know where your people are and communicate with them at any time, anywhere in the world.
- ✓ Real-time awareness of potential hazards means you can correct and protect your people fast.
- ✓ Visibility to the complete life cycle of an incident helps minimize and mitigate future occurrences.
- ✓ Field Safe integrates with emergency service providers to provide active monitoring of users. Workers know that in the event of an incident, help will soon be on the way.

Additional Benefits

A Connected Worker is a Safer Worker

If the need arises, employees can connect and share documented information with emergency responders and head office, from any location including on the road.

Lower Operating Costs and Meet Environmental Mandates.

Digital forms save trees, lower CO2 emissions and lighten your carbon footprint. Forms are completed faster and with less errors which reduces administrative costs.

Win More Business.

A digital safety solution helps prove you are a safety-conscious vendor.

Maintain Security Compliance.

Our SOC 2 compliance certification means we meet the highest industry standards for data security.

About Us

Field Safe's easy-to-use health and safety solution and smarter workflows methodology connect workers and help our clients save time, save money, and save lives. We do this by simplifying the sharing of field data and facilitating real-time communication among workers and management at any time, anywhere in the world.
