

Compliance Calendar

EASY-TO-USE. SAFETY FOCUSED. ALL-IN-ONE.

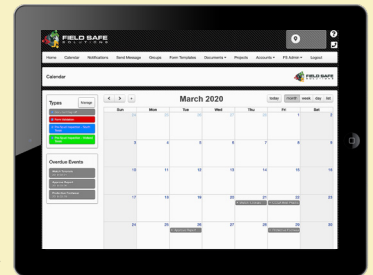

Assign tasks. Track progress. Send Reminders and Notifications. Monitor completion status.

Field Safe's Compliance Calendar simplifies the administration of, and provides a clear line of sight to, the status of all your safety, regulatory, and environmental programs' compliance obligations.

Like all of our solutions, it is easy to use and decreases the time spent on manual processes. Compliance Calendar organizes all activities into one single view, helping you efficiently administer your tasks from creation, assignment, management and finally to completion, resulting in organizational efficiencies and time savings that lower your operating costs while improving worker safety.

How clearly can you see the status of your compliance obligations? With Compliance Calendar:

- Tasks are created and assigned.
- Involved team members are immediately notified of the task, its required actions, and deadlines.
- Updates are made from any mobile device, with the provided information syncing to Field Safe's central database.
- Customized past due reminders and notifications are automated, with escalation notifications and completion reminders communicated if deadlines are missed.
- Real-time task monitoring allows you to provide clients and management an up-to-date project status report at a moment's notice.

Key Benefits of Compliance Manager:

- **Ease of Use.** Because our solutions are so user friendly and operate on smartphones and other mobile devices, user adoption is high and tasks are completed faster with fewer errors. Self-populating forms, speech recognition texting, drop-down menus and smart memory make collecting and sharing data simple.
- **Operational Efficiencies.** Digitizing all compliance obligation tasks and activities saves time and reduces errors inherent in manual processes. Real-time task monitoring allows you to provide clients and management an up-to-date project status report at a moment's notice.
- **Real-Time Communication and Information Sharing.** Managers have real-time visibility to the completion status of their team's tasks, while individuals responsible for actions have visibility to those specific to them.
- **Streamline Safety and Regulatory Audits.** Compliance Calendar provides an audit trail that is invaluable in preparation for, and during safety program and regulatory audits including Certificate of Recognition (COR). Digitizing your compliance obligations provides an electronic record of compliance and brings all required information to your fingertips.

"Our system is so easy to use, we ship without a manual!"

Cam Barrett, CEO of
Field Safe Solutions

Compliance Calendar simplifies your ability to create, assign, update and monitor the status of your tasks and communicate reminders and notifications to your team. This ease of use decreases the time previously spent manually tracking your tasks.

Field Safe helps you construct a complete, all in one, health and safety system that facilitates real-time communication with workers, monitors journey management, tracks tickets and tasks, digitizes forms completion and data capture, ensures regulatory compliance and improves corporate decision making. However, our solutions are also modular, with each capable of operating on its own. License only what you require now and add additional functionality as your safety culture and business needs dictate.

Field Safe integrates into any software platform and runs on Apple, Android and Windows operating systems from any smartphone or tablet. In the most remote areas and extreme environments we keep workers connected by tapping into cellular services through satellite-enabled devices.

Our partnership with STARS and other North American emergency services providers initiates active monitoring of your team members. If a check-in is missed, pre-determined automated call responses are activated. Workers know that in the event of an incident, help will soon be on the way.

Field Safe has a number of solutions designed to keep workers connected and safe, while optimizing your operations and lowering costs. **Learn more by visiting our website or call us at 1-800-497-7614.**
