

## Lone Worker Monitoring

**EASY-TO-USE. SAFETY FOCUSED. ALL-IN-ONE.**

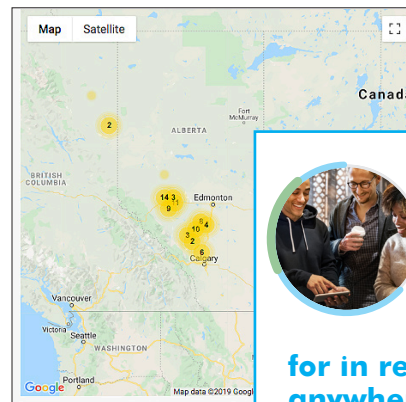

**With Field Safe Solutions, your workers are never truly alone.**

In North America we have some of the world's most stringent regulations to protect lone workers. Even without them, the primary goal of organizations is to keep their people safe. Field Safe's Lone Worker Monitoring solution helps you meet your lone worker safety goals because with Field Safe, they are never truly alone.

While government regulations vary, generally an employer must, for any employee working alone, provide an effective communication system consisting of:

- Radio communication, or
- Landline or cellular telephone communication, or
- Some other effective means of electronic communication, or
- Any program must include a process for regular contact by an employer designate at defined intervals appropriate to the nature of the hazard associated with the worker's work.

Field Safe's easy-to-use safety application incorporates smarter workflows that connect workers and monitor their safety, whether in the field, the office, at home, or in transit. We digitally resolve the field data capture gap and enable the real-time relay of information to help you save time, save money and save lives.

Lone Worker Monitoring

**"Peace of mind knowing your people are accounted for in real-time – anywhere in the world."**

IBM Canada

### Key Benefits of Lone Worker Monitoring:

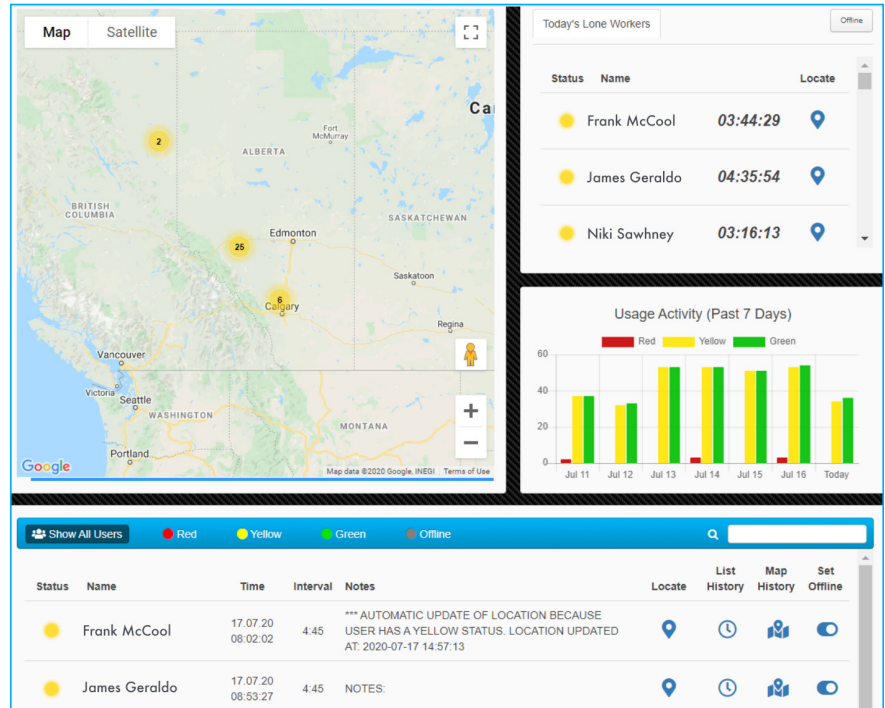

- **Real-Time Communication.** In even the most remote and rugged locations, workers are connected. Supervisors can instantly monitor and communicate with teams, know where people are and what projects they are working on.
- **Ease of Use.** Field Safe is so easy to use, it doesn't require a manual. Ease of use improves user adoption and increases the amount of field data captured.
- **Digital Data Capture.** Lone Worker Monitoring uses GPS-based dashboards to provide
- **Regulatory Compliance.** Regulations vary at the country, state and provincial level. They change fast. Field Safe provides just in time access to safety manuals and stays current with changes so you don't have to.
- **Emergency Services Integration.** Our partnership with STARS® and other emergency services providers initiates active monitoring of workers. If a check-in is missed, pre-determined responses are initiated.

**Field Safe keeps your workers connected and safe while lowering your operating costs and creating operational efficiencies.**

Field Safe has a number of solutions designed to keep workers connected and safe, while optimizing your operations and lowering costs.
