

Telecommunications Worker Safety and Data Capture Solutions.

EASY-TO-USE. SAFETY FOCUSED. ALL-IN-ONE.

Connecting workers to save time, save money, and save lives.

The Telecommunications (Telco) industry represents a wide variety of participants including carriers; infrastructure, tower and antenna erectors and owners; construction and engineering firms; and general maintenance and service companies. Responsibilities range from broadcasting only, to installing point to point radios, building out broadband infrastructure, and managing and maintaining co-location facilities.

Field Safe understands the complexities of the Telco industry. We know work conditions in your industry can be hazardous especially tower construction and maintenance. A high degree of technical competence is required and knowing that your employees and contractors have the qualifications and training required is a key component of keeping them safe. By digitizing the field and facilitating instant communication, Field Safe helps you meet your safety goals while creating operational efficiencies and lowering costs.

Field Safe's easy to use solutions lower operating costs by:

- Consolidating forms and improving workflows
- Enabling faster, more accurate forms completion and submission
- Ensuring regulatory compliance
- Facilitating real-time data sharing from the field, to head office and across all locations
- Reducing paper procurement and storage costs

"We know the health and safety of your employees is a top priority. Helping you exceed your safety goals is our mission."

Cam Barrett, CEO of Field Safe Solutions

Digitizing your team resolves the field data capture gap, connects workers, and enables the instant relay of information. Field Safe helps you Save Time, Save Money, and Save Lives.

Keep Your People Safe

- Know where your people are and communicate with them at any time, anywhere in the world.
- Ensure compliance with pandemic office closures, self-isolation protocols and quarantine restrictions.
- Create a working environment that promotes best-in-class employee safety and contact tracing for those returning to work as well as essential workers who remained on duty.
- Automate corrective actions to improve safety, avoid delays or costly incidents, and ensure no hazard goes unresolved.

Optimize Operations and Lower Costs

- Ease of use improves adoption; digitizing forms completion and submission reduces errors and cuts completion time by as much as two-thirds.
- Process reviews improve workflows and consolidate forms.
- Audit trails and "just in time" access to safety documents protect against fines for regulatory non-compliance.
- A paperless process reduces paper procurement, storage, and security costs.
- Instant sharing of data improves analysis and reporting which supports better business decisions.

Connecting your workforce with our easy-to-use safety application improves communication and safety, creates efficiencies, mitigates risks, and lowers operating costs.

Field Safe helps you construct a complete, all in one, health and safety system that facilitates real-time communication with workers, monitors journey management, tracks tickets and tasks, digitizes forms completion and data capture, ensures regulatory compliance and improves corporate decision making. However, our solutions are also modular, with each capable of operating on its own. License only what you require now and add additional functionality as your safety culture and business needs dictate.

Field Safe integrates into any software platform and runs on Apple, Android and Windows operating systems from any smartphone or tablet. In the most remote areas and extreme environments we keep workers connected by tapping into cellular services through satellite-enabled devices.

Our partnership with STARS and other North American emergency services providers initiates active monitoring of your team members. If a check-in is missed, pre-determined automated call responses are activated. Workers know that in the event of an incident, help will soon be on the way.

Field Safe has a number of solutions designed to keep workers connected and safe, while optimizing your operations and lowering costs. **Learn more by visiting our website or call us at 1-800-497-7614.**

Lone Worker Monitoring – With Field Safe, your workers are never truly alone. Know where your people are; understand what they are working on; keep them safe and connected.

Real-Time Documentation – Easy data capture from any mobile device drives user adoption, faster completion of forms, and results in more accurate data being collected.

Journey Management – Assess and track your workers' journeys to identify the level of risk, mitigate potential in-transit threats, and quickly respond to incidents.

Safety Ticket Management – Manage and understand the status of your workers' certifications and training. Set up reminders to ensure their expertise is current.

Task Completion Workflow – Assign tasks, monitor progress, and see overdue items in real-time.
