

Worker Safety and Data Capture Solutions.

EASY-TO-USE. SAFETY FOCUSED. ALL-IN-ONE.

Field Safe Solutions... By the Field, For the Field

Imagine you have an employee working alone in a remote location. That worker faces a potentially life-threatening situation. Little help is available... likely just a cell phone tucked in a pocket. One of our founders experienced this exact situation and because of it, Field Safe Solutions was born. He realized that if he had been hurt, nobody would have known. He was determined to find “a better way”. *Field Safe is that better way.*

We know the health and safety of your employees is a top priority. Helping you exceed your goals is our mission. Field Safe keeps your workers safe and connected any time, anywhere. Our solutions connect your workers and create smarter workflows that:

- **Save time.**
- **Save money.**
- **Save lives.**

Field Safe’s ease of use encourages user adoption. Our “data from field to desk” smarter workflow creates operational efficiencies across your organization, helping you optimize your operating spend and make more informed business decisions while meeting your primary objective of keeping your people safe.

Digitizing your team resolves the field data capture gap, connects workers, and enables the instant relay of information. Field Safe helps you Save Time, Save Money, and Save Lives.

Keep Your People Safe

- Know where your people are and communicate with them at any time, anywhere in the world.
- Ensure compliance with pandemic office closures, self-isolation protocols and quarantine restrictions.
- Create a working environment that promotes best-in-class employee safety and contact tracing for those returning to work as well as essential workers who remained on duty.
- Automate corrective actions to improve safety, avoid delays or costly incidents, and ensure no hazard goes unresolved.

Optimize Operations and Lower Costs

- Ease of use improves adoption; digitizing forms completion and submission reduces errors and cuts completion time by as much as two-thirds.
- Process reviews improve workflows and consolidate forms.
- Audit trails and “just in time” access to safety documents protect against fines for regulatory non-compliance.
- A paperless process reduces paper procurement, storage, and security costs.
- Instant sharing of data improves analysis and reporting which supports better business decisions.

“Our system is so easy to use, we ship without a manual!”

Cam Barrett, CEO of Field Safe Solutions

Field Safe's easy-to-use safety application saves time, money and lives.

Field Safe helps you construct a complete, all in one, health and safety system that facilitates real-time communication with workers, monitors journey management, tracks tickets and tasks, digitizes forms completion and data capture, ensures regulatory compliance and improves corporate decision making. However, our solutions are also modular, with each capable of operating on its own. License only what you require now and add additional functionality as your safety culture and business needs dictate.

Field Safe integrates into any software platform and runs on Apple, Android and Windows operating systems from any smartphone or tablet. In the most remote areas and extreme environments we keep workers connected by tapping into cellular services through satellite-enabled devices.

Our partnership with STARS and other North American emergency services providers initiates active monitoring of your team members. If a check-in is missed, pre-determined automated call responses are activated. Workers know that in the event of an incident, help will soon be on the way.

"Peace of mind knowing your people are accounted for in real-time – anywhere in the world."

IBM Canada

About Us

Founded in 2014, Field Safe Solutions is a cloud-based software as a service company head-officed in Calgary, Alberta. Our easy-to-use digital safety application and its smarter workflows methodology connect all workers, providing our clients with real-time communication and data capture and the peace of mind that their people are accounted for at any time, anywhere in the world.

Corporate Head Office:
 Suite 1350, 707 7th Avenue SW

 1-800-497-7614

Field Safe has a number of solutions designed to keep workers connected and safe, while optimizing your operations and lowering costs. **Learn more by visiting our website or call us at 1-800-497-7614.**

- 
Lone Worker Monitoring – With Field Safe, your workers are never truly alone. Know where your people are; understand what they are working on; keep them safe and connected.
- 
Real-Time Documentation – Easy data capture from any mobile device drives user adoption, faster completion of forms, and results in more accurate data being collected.
- 
Journey Management – Assess and track your workers' journeys to identify the level of risk, mitigate potential in-transit threats, and quickly respond to incidents.
- 
Safety Ticket Management – Manage and understand the status of your workers' certifications and training. Set up reminders to ensure their expertise is current.
- 
Task Completion Workflow – Assign tasks, monitor progress, and see overdue items in real-time.
