

Digitally Transform Your At-Risk Workers' Safety

Easy-to-Use. Safety Focused. All-in-One.

Field Safe Solutions... built by the field, for the field.

Field Safe digitally transforms your at-risk workers' experience by simplifying field data capture. We eliminate archaic and inefficient manual processes too many organizations still employ. Say goodbye to clipboard, pen and paper, big white binders, and call-in services, and say hello to the market's easiest to use digital solution.

If you answer **"YES"** to any of these questions, you need to speak with Field Safe.

Is the safety of at-risk field workers important to your company?

Would monitoring employees and contractors in real-time be beneficial?

Would your workers prefer to complete forms using voice commands and then submit them in real-time?

Are you looking for smarter workflows to eliminate costly steps and make your role easier?

Is fast access to compliance reports important?

Field Safe's easy-to-use health and safety platform makes it easy to transfer data from the field and communicate with your workers in real-time whether at site, working from home, at the office, or in transit.

All-In-One

Field Safe does away with the need for multiple applications and manual processes and reduces the "app fatigue" multiple processes and systems create.

Easy-to-Use

Workers with any technology skill level can use Field Safe with almost no training.

Safety Focused

Field Safe has an unrivaled combination of industry and safety subject matter expertise. This allows us to stay ahead of emerging technologies that continuously improve health and safety programs.

"Our software is so easy-to-use, it ships without a manual!"

Cam Barrett, CEO of Field Safe Solutions

FIELD SAFE
SOLUTIONS

Save Time, Save Money, and Save Lives

Safety First

- ✓ Know where your people are and communicate with them at any time, anywhere in the world.
- ✓ Real-time awareness of potential hazards means you can correct and protect your people fast.
- ✓ Visibility to the complete life cycle of an incident helps minimize and mitigate future occurrences.
- ✓ Field Safe integrates with emergency service providers to provide active monitoring of users. Workers know that in the event of an incident, help will soon be on the way.

Additional Benefits

Lower Your Operating Costs.

Eliminate the need to rekey data, reduce paper consumption, and lower insurance premiums, and other expenses.

Operate by Priority.

Maximize your revenues by scheduling projects and maintenance based on level of need.

Win More Business.

A digital safety solution helps prove you are a safety-conscious vendor.

Meet Environmental Mandates.

Save trees, lower CO2 emissions and lighten your carbon footprint.

Maintain Security Compliance.

Our SOC 2 compliance certification means we meet the highest industry standards for data security.

About Us

Field Safe's easy-to-use health and safety solution and smarter workflows methodology connect workers and help our clients save time, save money, and save lives. We do this by simplifying the sharing of field data and facilitating real-time communication among workers and management at any time, anywhere in the world.
